Protonation Dynamics
in Protein Function

➔ Colloquium

Wed, Oct 1, 2014 ▪ 16:15 – 18:00 ▪ Lecture Hall of the Inst. of Computer Science at Freie Universität Berlin (Takustr. 9, 14195 Berlin-Dahlem)

16:00 Welcome coffee

16:15 Prof. Robert G. Griffin,
Massachusetts Institute of Technology (MIT),
Cambridge, USA

***Magic Angle Spinning NMR Studies of
Membrane Proteins: M2₁₈₋₆₀, VDAC, and bR***

17:10 Coffee break

17:30 Prof. Wayne L. Hubbell,
University of California (UCLA), Los Angeles, USA

***Revealing protein conformational substrates
and dynamics with site-directed spin labeling
and high pressure EPR***
